

# Welcome to **TEAM SQNLL**

**TEAM SQNLL** is the SQ Competition Team of **Frankston Car Audio** and promotes

**SOUND QUALITY AT NORMAL LISTENING LEVELS**

**TEAM SQNLL** considers those normal listening levels to be:

**Volume levels that cannot be easily heard outside their own vehicle,**

**Volume levels that can be enjoyed in their vehicle, without fatigue,**

and most importantly,

**Volume levels that are listened to without causing disruption to others,**

**Volume levels that do not cause permanent hearing damage**

The team consists of Car Audio enthusiasts who enjoy their Car Audio systems and regularly compete in **MEASQ\*** Sound Quality Competition .

The team assist each other with installation and tuning of their Car Audio systems, often afterhours at the **FCA** workshop

Test & Tune days are held at the **FCA** workshop, exclusively for team members, prior to an upcoming competition.

The sharing of information and knowledge is encouraged amongst the members of **TEAM SQNLL**

If you are interested in expanding your Car Audio knowledge and you would like to compete in SQ Competitions,

join **TEAM SQNLL**

**Membership is free!**

**TEAM SQNLL** is an initiative by **Frankston Car Audio** to increase public awareness to the responsible use of Car Audio Systems
